Eeva-Liisa Warinowski & Piia Siivonen

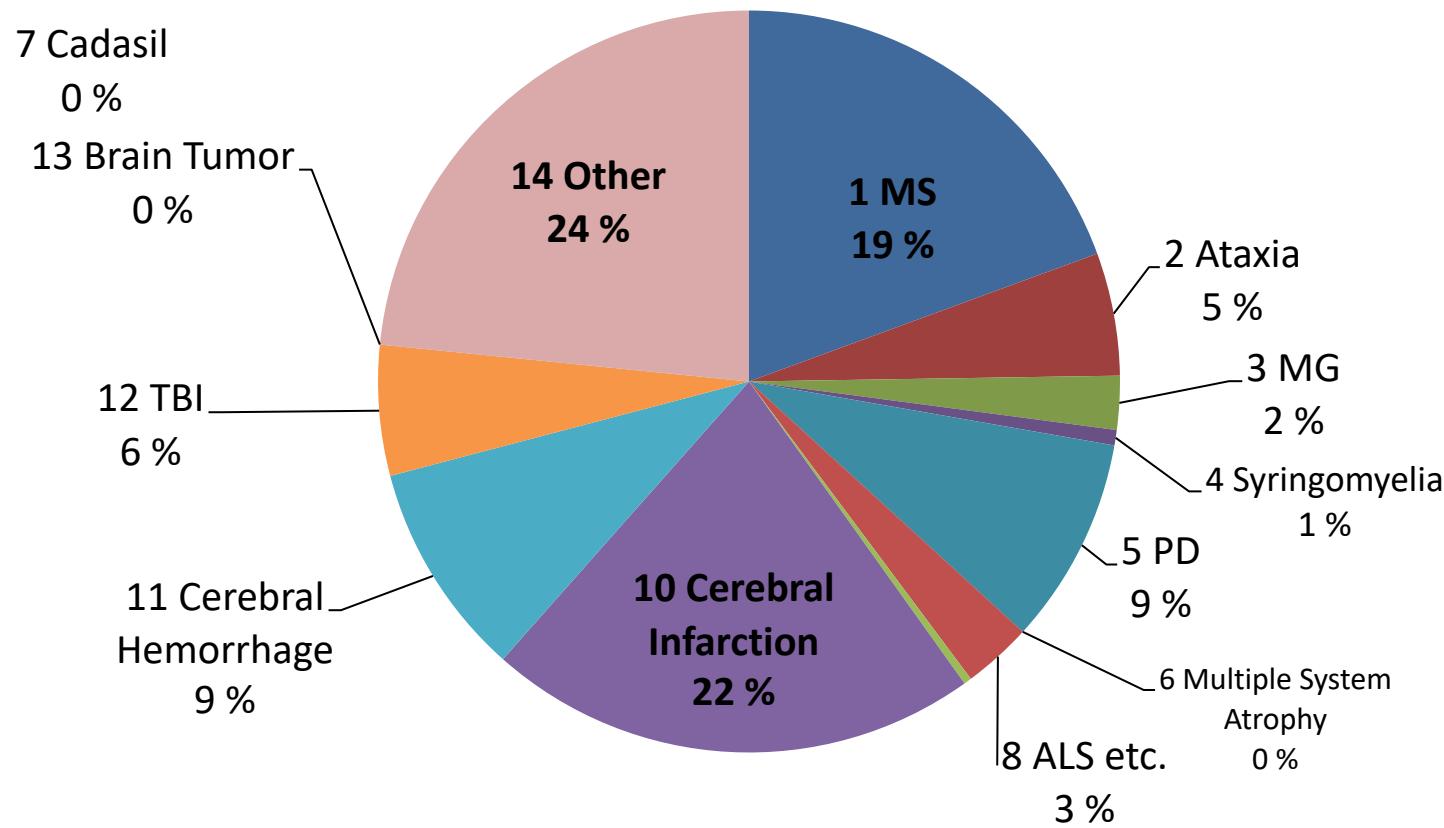

16.1.2020

Speech Therapy Patients in Masku 2019

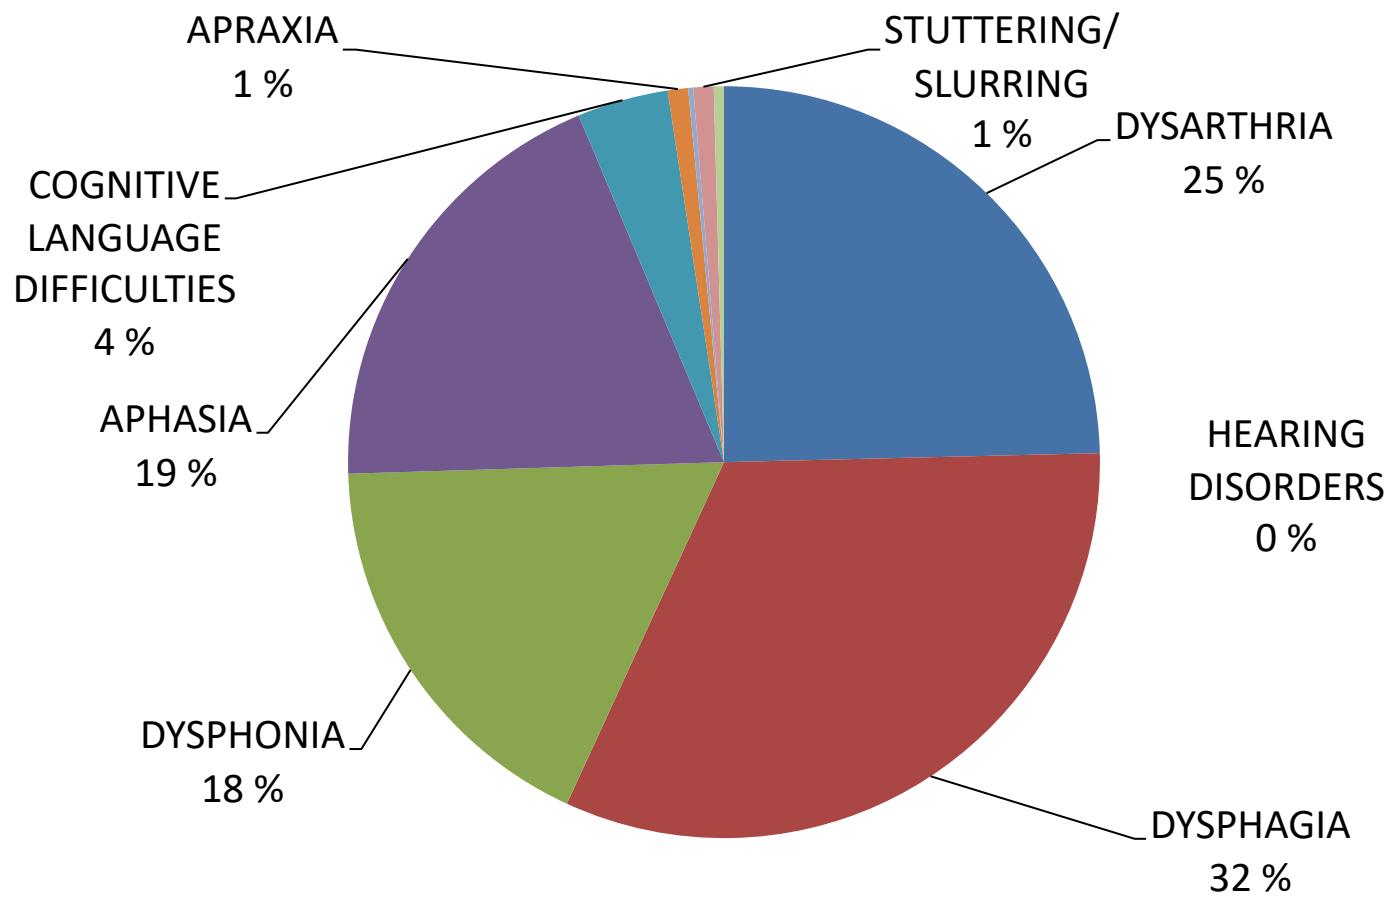

- 21 Outpatients
 - total visits 221
- 293 Inpatients
 - total visits 784
- Also we have speech therapy groups and lectures

SLP Patients' Medical Diagnoses in 2019

SLP Patients' Logopedic Diagnoses in 2019

Communication Course for Patients with Cerebrovascular Disorder and Aphasia

- Since 2013 we have had several courses for patients with cerebrovascular disorder and aphasia
- Each course contains three separate 5 days period
- At the moment we have one course period almost once a month
- Patients attend the course always with their partner
- The purpose of the course is to develop interaction and communication skills with each other
- (**Kela**, the Social Insurance Institution of Finland, is a government agency that provides basic economic security for everyone living in Finland)

Speech therapy with MS patients during the rehabilitation periods

- Interview and examination
 - language
 - motor speech
 - voice/ respiration
 - swallowing
- Counseling/ contact patients' own speech therapist /recommendation of speech therapy when needed

Multidisciplinary work with all the other professionals who work here in our rehabilitation centre
